

Mexborough St John the Baptist CE Primary School

Early Years Foundation Stage Policy

Introduction

'Every child deserves the best possible start in life and support to fulfil their potential. A child's experience in the early years has a major impact on their future life chances. A secure, safe and happy childhood is important in its own right and it provides the foundation for children to make the most of their abilities and talents as they grow up.'

Early Years Foundation Stage Profile - Department for Children, Schools and Families 2012

The Early Years Foundation Stage applies to children from birth to the end of the reception year. At St John's Primary School children are admitted to Nursery the term after their third birthday if places are available and into reception in the September following their fourth birthday.

Early childhood is the foundation on which children build the rest of their lives. At St John's Primary School we greatly value the importance that the EYFS plays in laying secure foundations for future learning and development.

However, we also believe that early childhood is valid in itself as part of life. It is important to view the EYFS as preparation for life and not simply preparation for the next stage of education.

Aims & Objectives

We aim to support all children to become independent and collaborative learners. We will provide a broad and balanced curriculum that will enable each child to develop personally, socially, emotionally, spiritually, physically, creatively and intellectually to their full potential.

At St John's Primary School, we will:

- Provide a happy, safe, stimulating and challenging programme of learning and development for the children to experience as they begin their journey through school.
- Provide a broad, balanced, relevant and creative curriculum that will set in place firm foundations for further learning and development in Key Stage 1 and beyond and enable choice and decision making, fostering independence and self-confidence.
- Use and value what each child can do, assessing their individual needs and helping each child to progress.
- Develop excellent relationships with parents and carers to build a strong partnership in supporting their children.
- Provide a caring and inclusive learning environment which is sensitive to the requirements of the individual child including those who have additional needs.

The early-years education we offer our children is based on the following principles:

- It builds on what our children already know and can do;
- It ensures that no child is excluded or disadvantaged;
- It offers a structure for learning that has a range of starting points, content that matches the needs of young children, and activities that provide opportunities for learning both indoors and outdoors;
- It provides a language rich and stimulating environment;
- It acknowledges the importance of a full working partnership with parents and carers.

The Early Years Foundation Stage is based on four themes:

- A Unique Child
- Positive Relationships
- Enabling Environments
- Learning and Development

A Unique Child

At St Johns Primary School we recognise that every child is a competent learner who can be resilient, capable, confident and self-assured. We recognise that children develop in individual ways and at varying rates. Children's attitudes and dispositions to learning are influenced by feedback from others; we use praise and encouragement, as well as celebration and rewards, to encourage children to develop a positive attitude to learning.

Inclusion - We value the diversity of individuals within the school and believe that every child matters. All children at St Johns Primary School are treated fairly regardless of race, gender, religion or abilities. All families are valued within our school.

We give our children every opportunity to achieve their personal best and planning is adapted to meet the needs of all groups and abilities. We do this by taking account of our children's range of life experiences when we are planning for their learning.

In the Foundation Stage we set realistic and challenging expectations keyed to the needs of our children, so that many achieve the Early Learning Goals by the end of the stage. We do this through:

Planning opportunities that build upon and extend children's knowledge, experience and interests, and develop their self-esteem and confidence;

- Using a wide range of teaching strategies based on children's learning needs;
- Providing a wide range of opportunities to motivate and support children and to help them learn effectively;
- Offering a safe and supportive learning environment in which the contribution of all children is valued;
- Employing resources which reflect diversity and are free from discrimination and stereotyping;
- Planning challenging activities to meet the needs of both boys and girls, of children with special educational needs, of children who are more able, of children with disabilities, of children from all social and cultural backgrounds, of children from different ethnic groups, and of those from diverse linguistic backgrounds;
- Monitoring children's progress and taking action to provide support as necessary (such as referrals to speech therapy) as necessary.
- Working closely with parents, carers and other outside agencies to ensure all children's needs are met and we enable them to access the curriculum and make good progress.

Positive Relationships

At St Johns Primary School we recognise that children learn to be strong, confident and independent from being in secure relationships. We aim to develop caring, respectful, professional relationships with the children and their families.

Parents as Partners - We recognise that parents/carers are children's first and most enduring educators and we value being partners with them in their child's education through:

- Arranging, where possible, visits by the staff to all children in their home setting or childcare provision prior to their starting school.
- Providing a handbook of information about commencing Foundation Stage at St Johns and through the school Prospectus.

- Outlining the school's expectations in the Home-School agreement.
- Inviting parents/carers and children the opportunity to spend time in Foundation Stage during an induction visit before starting school.
- Providing an induction meeting for Foundation parents/carers to meet with staff to discuss school routines, expectations and to answer any questions parents/carers may have.
- Holding a Parent's Day early in the academic year to establish how a child is settling into the school environment and then mid-year to look at their child's progress.
- Operating an open door policy for parents/carers with any queries or concerns. Conversely, if Foundation staff have concerns about the progress of a child, they will immediately approach parents and carers to discuss them.
- School newsletters.
- Half termly newsletter from Foundation Stage teachers about learning / topics for each half term
- Inviting parents to attend informal meetings about areas of the curriculum, such as phonics or reading.
- Sharing regularly the children's 'Learning Journey' with parents/carers and valuing the on-going contributions to this from parents/carers.
- Sending a written report on their child's attainment and progress at the end of their time in each Foundation year.
- Asking parents to sign a generic permission form for visits, food tasting and photographs etc.
- Parents are invited to a range of activities throughout the school year such as assemblies, workshops, Christmas productions and sports day etc.
- Offering opportunities for parents and carers to visit the school on a volunteer basis to assist with the children's learning e.g. hearing readers.
- Offering a range of activities throughout the year to encourage specific collaboration between child, school and parents e.g. Bake and book events

Enabling Environments

At St John's Primary School we recognise that the environment plays a key role in supporting and extending the children's development, where the children feel confident, secure and challenged. The children have daily access to an indoor and outdoor environment that is set up in discrete areas of learning with planned continuous provision.

Play-based learning is paramount and children have opportunities to direct their own learning with planned opportunities provided by staff.

We plan a learning environment, both indoors and outdoors, that encourages a positive attitude to learning and reflects the individual's interests, passions and abilities. We use materials and equipment that reflect both the community that the children come from and the wider world. We encourage the children to make their own selection of the activities on offer, as we believe that this encourages independent learning. We ensure that resources and spaces are safe to use and checked regularly.

Learning and Developing

The EYFS Curriculum – Our curriculum for the Foundation Stage reflects the areas of learning identified in the Early Learning Goals.

There are seven areas of learning and development that must shape educational provision in early years settings. All areas of learning and development are important and inter-connected. None of the areas of learning can be delivered in isolation from the others. Our children's learning experiences enable them to develop competency and skill across a number of learning areas.

They require a balance of adult led and child initiated activities in order for children to reach the levels required at the end of EYFS. Three areas are particularly crucial for igniting children's curiosity and enthusiasm for learning, and for building their capacity to learn, form relationships and thrive.

The three Prime areas are:

- Personal, Social and Emotional Development
- Communication and Language
- Physical Development

Staff will also support children in four specific areas, through which the three prime areas are strengthened and applied.

Specific Areas:

- Literacy
- Mathematics
- Understanding the world
- Expressive arts and design

Children's development levels are assessed and as the year progresses, the balance will shift towards a more equal focus on all areas of learning, as children grow in confidence and ability within the three prime areas. However, if a child's progress in any of the prime areas gives cause for concern, staff will discuss this with the child's parents/carers and agree how to support the child.

Foundation pupils also participate in a daily phonics sessions, following the guidance in the "Letters & Sounds" document.

Characteristics of Effective Learning

We ensure that our environment and delivery of the curriculum incorporates the three characteristics of effective teaching and learning:

- Playing and Exploring - children will have opportunities to investigate and experience things, and 'have a go'.

'Children's play reflects their wide ranging and varied interests and preoccupations. In their play children learn at their highest level. Play with peers is important for children's development.'

Through play, our children explore and develop learning experiences, which help them make sense of the world. They practise and build up ideas, learn how to control themselves and understand the need for rules. They have the opportunity to think creatively alongside other children as well as on their own. They communicate with others as they investigate and solve problems.

- Active Learning - children will have time and space to concentrate and keep on trying if they encounter difficulties, and enjoy their achievements.

'Children learn best through physical and mental challenges. Active learning involves other people, objects, ideas and events that engage and involve children for sustained periods.'

Active learning occurs when children are motivated and interested. Children need some independence and control over their learning. As children develop their confidence, they learn to make decisions. It provides children with a sense of satisfaction as they take ownership of their learning.

- Creating and Thinking Critically - we encourage and support children to have and develop their own ideas, make links between ideas, and develop strategies for doing things.

“When children have opportunities to play with ideas in different situations and with a variety of resources, they discover connections and come to new and better understandings and ways of doing things. Adult support in this process enhances their ability to think critically and ask questions.”

Children will be given the opportunity to be creative through all areas of learning. Adults will support children’s thinking and help them make connections by showing interest, offering encouragement, clarifying ideas and asking open ended questions. Children can access resources and move around the classroom freely and purposefully to extend their learning.

Planning - The Early Years Foundation Stage curriculum provide the basis for planning in the Foundation Stage. Objectives within the Foundation Stage are from the Development Matters Statements from the Early Years Foundation Stage document. The planning is based upon themes with discrete phonics, maths and reading directed teaching. However, planning, which is based upon topics identified as vehicles of interest to deliver the children’s next steps in learning, responds to the needs, achievement and interest of the children. Our medium-term planning identifies the intended learning for children working towards the Early Learning Goals.

Observations - Foundation Stage staff use observations as the basis for planning. Staff are skilled at observing children to identify their achievements, interests and next steps for learning. These observations then lead the direction of the planning. Relevant and significant observations are recorded electronically in the children’s Learning Journeys on 2simple.

Assessment -Assessment in the Foundation Stage takes the form of both formal and informal observations, photographic evidence and through planned activities. We make regular assessments of children’s learning, and we use this information to inform future planning. The 2simple electronic system is then used to record and track the progress of each child’s level of development towards the Early Learning Goals throughout the year and reflect identified needs.

The Foundation Stage Profile is the nationally employed assessment tool that enables teachers to record their observations at the end of the Foundation Stage, and to summarise their pupils’ progress towards the Early Learning Goals. It covers each of the seven areas of learning contained in the curriculum guidance for the Foundation Stage.

The Learning Environment -The Foundation Stage classroom is organised to allow children to explore and learn securely and safely. There are specific areas where the children can be active, be quiet, creative etc. Children have access to both inside and outside area across the day; this has a positive effect on the children’s development. Being outdoors offers opportunities for doing things in different ways and in different scales than when indoors. The children can explore, use their senses and be physically active and exuberant. All areas of the curriculum can be explored outside.

Teaching & Learning Styles - Foundation Stage practitioners ensure that these meet the needs of all children. (See School Readiness document) by the following practice:

- the partnership between practitioners and parents, carers and other settings that helps our children to feel secure at school, and to develop a sense of well-being and achievement;
- the understanding that practitioners have of how children develop and learn, and how this must be reflected in their teaching;

- the range of approaches that provide first-hand experiences, give clear explanations, make appropriate interventions, and extend and develop the children’s play, talk or other means of communication;
- the carefully planned curriculum that helps children achieve the Early Learning Goals by the end of the Foundation Stage;
- the provision for children to take part in activities that build on and extend their interests, and develop their intellectual, physical, social and emotional abilities;
- the encouragement for children to communicate and talk about their learning, and to develop independence and self-management;
- the support for learning, with appropriate and accessible space, facilities and equipment, both indoors and outdoors;
- the identification, through observations, of children’s progress and future learning needs, which are regularly shared with parents;
- the good relationships between our school and the other educational settings in which the children have been learning before joining our school;
- the clear aims of our work, and the regular monitoring of our work to evaluate and improve it;
- the regular identification of training needs for practitioners working at the Foundation Stage.

Transition

Starting school can be a difficult time for young children; we therefore plan this time carefully to support children with the transition and to ensure it is as smooth as possible for each child and that they settle in to their new class quickly and happily.

Starting Foundation Stage two – Parents of all children starting in the next academic year will be invited to an Induction Meeting in the Summer term to meet their child’s new teacher and other key staff and learn about school and Foundation Stage two.

New class sessions – Foundation Stage practitioners work closely together throughout the year. In the summer term, children visit the Foundation Stage two setting regularly. Children from other settings are invited to attend sessions in FS2.

During the first two weeks children will stay for two full days and the other days will go home at 1pm after lunch. This settles children and allows staff to get to know the children well and complete Baseline assessments.

Transition into Key Stage 1 (Year 1) - Throughout the Reception year, each child’s involvement in whole school life will have been built upon; many of the teaching and support staff will already be familiar people to them. They will have taken part in Key Stage and whole school assemblies as well as sharing dinnertime playtime with the Key Stage 1 children.

Children know their new class teacher and spend time in the new class during the summer term.

Safeguarding & Welfare

Children learn best when they are healthy, safe and secure, when their individual needs are met, and when they have positive relationships with the adults caring for them.’
(Statutory Framework for EYFS 2014)

At St John’s Primary School, we understand that we are legally required to comply with welfare requirements as stated in the Statutory Framework for Early Years Foundation Stage 2014.

- To provide a setting that is welcoming, safe and stimulating where children can grow in confidence;
- Promote good health;

- Manage behaviour effectively in a manner appropriate for the children’s stage of development and individual needs
- To ensure that all adults who look after the children, or who have unsupervised access to them, are suitable to do so;
- Ensure that the setting, furniture and equipment is safe and suitable for the purpose it was intended for;
- Maintain records, policies and procedures required for the safe efficient management of the setting and to meet the needs of the children.

Good Health - All children are provided with a healthy snack each day as well as being given the choice of milk. They have access to water at all times.

Monitoring and Review

It is the responsibility of those working in Foundation Stage to follow the principles stated in this policy. The Headteacher, Deputy Head Teacher and the EYFS Leader will carry out monitoring on EYFS as part of the whole school monitoring schedule. The Governing Body will also be part of this process. This policy will be reviewed in January 2020 or as necessary.
